

## **Fred helps save the day!**

**Delena Farmer** at Squires Elementary had two students in her fourth grade class whose artwork was selected and submitted for the district calendar art competition. When the student's parents were notified, I was saddened to find out that one student's mother was out of town on business and the other mom had to work the night of the reception. I spoke to Delena and she didn't hesitate. She got approval from school and the parents and took these two girls to the gallery reception and even took them out to eat as a celebration of their outstanding efforts!
