

Helping students get in school

Sharon Pearson has performed above and beyond the call of duty for the Department of Pupil Personnel and FCPS. During this time of year when parents need proof of residence and power of attorney papers to enroll their children in school, and even though the lines are long all day, Sharon would stay after hours – almost daily – and wait for parents who could not get in during business hours. Sharon was instrumental in getting many students in school on the first day! She is a true example of excellent customer service! She truly cares about our families and puts their needs first in Fayette County Public Schools.
