

**Angela Roberts** at **IAKSS** has gone above and beyond her call of duty where our youth are concerned; she has volunteered in the Lexington community with youth and the Mayor's Training Center as well as YMCA Black Achievers program. I feel that she has given many parents resources for their students to become successful in our schools as well as the community. She is always willing to offer advice and comfort to our teens as well as youth coordinators who work. I can always call on her for assistance, please consider her for this award. Many are called but few are chosen, please let Angie Roberts be a chosen one for this award.
