

A special needs student and I went to 4-H Camp with all the students from Picadome Elementary. My student and I were only going to stay for the day. It was to be a short day because of the long bus ride. **Mr. Gordon Sayre** (bus driver) said we could extend our day because he had time to spare and did not need to get back to the bus when he was scheduled and allowed the student to stay an extra 30-40 minutes to do an extra activity at 4-H Camp. This extra activity was very meaningful for this special needs student and will be one she remembers for a long time. This bus driver went above and beyond and was most appreciated.
