

Ms. **Michelle Hollingsworth** – or Ms. H as she is affectionately called - has had a big impact on students at **Johnson Elementary School**. She is always looking for new ways to help children succeed in school. She goes out of her way to attend students' extra curricular activities outside of school hours and let's them know she cares for them not only as students but in their life as well. I have had nothing but great encounters with her. My daughter was a student of hers last year for fourht grade and learned a lot and has excelled in many ways. She has grown very close to Ms. H, who not only looks out for the well being of her students, but for all Johnson students.
