

Fred sightings

My son has been having a difficult time dealing with two recent close family deaths, and it has affected his classroom behavior. **Hollie Griffith**, his teacher at **Rosa Parks Elementary**, has been extremely patient as she established open lines of communication with us and our son and means to assist our son in dealing with his behavior and most importantly the root cause, his extreme loss. She has formulated a reward plan for his continued appropriate behavior and will honor him at that time. When he tells us who he loves, he mentions "Mrs. Griffith" in the top three. We have not experienced such love and compassion for one of our children, and we are in awe. Hollie deserves a huge amount of praise and thanks for her efforts.
