

Fred sightings

As **Clays Mill Elementary** was making plans to set our new Accountability Index for 2007-08, we called upon the expertise of our wonderful art teacher, **David Page**. We knew he had what it takes to design a colorful, bold banner to inspire us. When we found out he would be out of town for several days, we explained that really we were in no rush and that he could get it to us whenever it was ready. In his amazing work ethic and spirit, David chose to not only get us the design on time, he worked on it on the plane to his destination, called me at home to tell us it was ready and even stopped into an Internet-connected Starbucks to e-mail me a draft copy so that we would have it as soon as possible.
