

Fred sightings

When our son's school bus did not pick him up at his **Glendover Elementary** bus station, **Larry Tipton** (an assistant principal) offered to drive our child out to **Winburn Middle School**. After receiving our approval, Mr. Tipton look it upon himself, used his own vehicle and time, and drove our child to school, getting him there two minutes before the bell rang. If we had to return and drive him, our son would have been an hour late. That Mr. Tipton would take time out of his very busy day to help out a student that is not even "one of his own" is exemplary.
