

Beaumont archers compete in regionals

Beaumont is the only Fayette County school that organized an archery team for the NASP regionals, where 10 middle schools competed.

Tommy Harlamert placed third among boys, and Mimi Aldabbagh finished fifth among girls in the National Archery in the Schools Program competition March 1 in Frankfort. Both are eighth-graders.

FCPS purchased archery equipment for middle and high school PEP grant schools last summer, and interested teachers received training from NASP experts.
