

Squires kids share a cup

Six students from Squires Elementary School came to a recent school board meeting to demonstrate sport stacking. That's where they arrange 12 specially designed plastic cups in pre-determined sequences.

The kids ran through combinations of 3s, 6s and 10s as they stacked multi-colored pyramids of cups. Then they invited Superintendent Stu Silberman and the school board members to give it a try.

As the adults discovered, it's not as easy as it looks!
