

Francine Walker is the first person people see when they come to Leestown Middle School. I have yet to see her without a smile on her face. She is always willing to help out any teacher whether it be with faxes or parents. I recently took on a new position in the school, and she walked me through new procedures and was my constant “go to” when I became overwhelmed. I think that our classified staff are overlooked for the many things they do for a school. That is why Ms. Walker is a Fred. She always goes above and beyond!
