

As busy as teachers are with their own responsibilities and duties to their students and schools, **Shirley Jeffares** (Southside Technical Center) and **Boo Blakey** (Cardinal Hill Hospital) are two teachers who are always thinking of others. For two years, both Boo and Shirley have shared materials, portfolio information and books/curriculums they thought might benefit The Family Care Center teachers. We want to thank both of them and recognize them for going beyond the realm of their responsibilities.
