

There were many pieces of shattered glass in the Lafayette High School senior parking lot, making it difficult to drive around it. I phoned the school's office, thinking it would most likely be awhile before the tire hazard was cleared away. Within two minutes, **Raylene McCoy** appeared in the lot. She was very careful to sweep away every piece of glass so that both students and parents alike would not risk a flat tire. I was amazed by her promptness and attention to detail. She did an excellent job!
