

Imagine showing up to work at Lafayette High School at 8 o'clock on a Monday morning to have a parent waiting for you with an unfamiliar child's face. Without going into specifics, this was no ordinary child or one that certainly was "NOT" going to be attending this school. However, as a testament to **Christa Dunn**'s care and concern for all children, she spent the time we needed, made phone calls for us, wrote down phone numbers and gave both the child and me a pep talk. The child and I both left feeling brave enough to tackle our next step. I had told this young lady in my care: "The first step was to see someone who knows where to find you the best education." Not only was this young lady impressed with me, but she knew she had Ms. Dunn on her side. After not attending school for two years, only 30 days later she had her GED! Thank you, Ms. Dunn! I'm looking forward to working with you again this year!
