

In their preparations for Lexington's Fiesta Latino, **Lydia Wainright** and **Gloria Arteaga-Hinton** have gone above and beyond their normal duties at Maxwell Elementary to make this an amazing experience for our students. They have spent the last two weeks giving up their lunch times and planning periods in order to meet with all of our third-, fourth- and fifth-grade students to practice for the performance Saturday. They have made costumes, choreographed productions and coordinated with all of our staff to make this special for the students. They have given our students an experience that goes beyond the core content. They show our students how truly dedicated they are and how much they both care about every student here.
