

As head custodian at Dixie Elementary, **Becky Rogers** has a job that keeps her busy! Each morning she arrives at the school hours before the rest of the staff and students, and works tirelessly for nearly 12 hours each day to ensure our building is an orderly, clean and beautiful place in which to learn and work. Without a doubt, Becky Rogers' dedication to creating an attractive learning environment has contributed to the academic achievement of Dixie's students. But Becky does not see her job ending there. Instead, she astutely identifies student needs in the building and works to meet them. She has begun mentoring students who need extra support. During her time with these students, she instills in them the value of a strong work ethic while teaching them important life skills. Becky exemplifies the definition of a "Fred." Dixie's students, families and staff are so very blessed to have her as a leader at our school.
