

Kudos

To the members of the **debate team at Henry Clay High School**, who have advanced to the “Sweet 16” of the Bickel & Brewer/New York University National Public Policy Forum. They’re one step closer to the \$10,000 grand prize in this year’s international competition on the topic, “Resolved: The federal government should substantially increase alternative energy incentives in the United States.” The Final Four schools will be announced in March, and the [NPPF](#) finals are April 17-19.
