

**Molly Dabney** of Veterans Park Elementary has been an absolute joy to work with this year. My son, Kip, has mild cerebral palsy and has needed additional physical therapy – about 8-10 hours a week. We worked with several options on how to fit this into his schedule. Our first attempt did not work very well, resulting in his first “C” (much to his utter disgust!). Mrs. Dabney stayed upbeat and encouraging and helped us work out a better therapy schedule that wouldn’t interfere with his math class. After the schedule change, Kip’s math grade steadily improved, and he’s back to earning A’s and B’s. Mrs. Dabney stayed on top of encouraging him and went very above and beyond in helping us work out a family/school issue. We love Mrs. Dabney, and her love for the students is obvious!
