

Kids earn college scholarships in Superintendent's Cup

Thousands of people spent a warm, sunny day cheering on their teams – not out on a ball field but at the Academic Challenge Superintendent's Cup, where youngsters put their brains to work and earned college scholarships.

After starting with more than 1,500 participants, the March 7 competition was pared to six teams in the finals. Team B from Athens-Chilesburg Elementary B finished first in the primary division, while Team E from Dixie Elementary was tops in the intermediate group.

“It's wonderful to have 5,000 people come to Tates Creek High School on a Saturday morning for academics,” Superintendent Stu Silberman told the packed auditorium before the awards ceremony.
