

## **Fayette kids compete well in state TSA contests**

The Kentucky Technology Student Association's recent state conference featured impressive displays and creative competition in everything from dragster design to film and fashion.

The TSA Scholarship recipient was Andrew Barnott and Distinguished Student was Sara Trout, both from Tates Creek High School. Also, Lauren Shields of Southern Middle was voted in as the 2009-2010 state secretary.

Participation in the Technology Student Association fosters personal growth, leadership and opportunities in technology, innovation, design and engineering. Members integrate science, technology, engineering and mathematics concepts through co-curricular activities, competitive events and related programs.

The state TSA competition was in Louisville in mid-March.
