

Sara Szwilski is the perfect example of a “Fred.” She teaches kindergarten at Liberty Elementary in the Spanish immersion program. Something that really stands out to me is that she has offered a class each Tuesday night for parents. She does not get paid to do this; she just offers her time to teach parents the Spanish that the children are learning in class. She just cares so much about the program, each student and each family. She also personally made costumes for the children to participate in the World Language Festival at Bryan Station High School. Again, she did this at night on her own time. She also went out and purchased the material to make the costumes. I could go on and on about the wonderful work that she is doing with the students and families at Liberty. I truly believe that my son could not have a better kindergarten teacher.
