

Three teams advance in robotics competition

Teams from three schools will compete in this week's state LEGO robotics contest. Here's how they fared in the May 2 regional competition:

- Jessie Clark Middle, team of Ryan Booth, Ben Eckert, Nic Quammen and Seth Rogers, 1st place, middle school division.
- Tates Creek Middle, team of Josh Phillips and Kenneth Porter, 2nd place, middle school division.
- James Lane Allen Elementary, team of Jacob Rickert and Aldon Morse, 2nd place, elementary division.

The upcoming robotics contest is part of the Student Technology Leadership Program's state championship. Nearly 300 schools will be represented, with some of the best STLP projects in the state on display May 21 at the Lexington Convention Center. The event is open to the public from 10 a.m. to 3 p.m., with the awards ceremony starting at 6 p.m. in Rupp Arena.
