

The custodians at Dixie Elementary Magnet School are the best. They are always there, not only to keep the school beautiful, but also to help whenever there is a need. For example, one day this winter, a piece of equipment started smoking in the cafeteria, and we had to evacuate the building. It was snowing outside, and **Mike Smith** took off his coat and put it around a group of kindergarteners who were in specials and didn't have their coats with them. **Becky Rogers** and **Demondry Turner** went back inside to get coats for the kids as well. This is just one example of extra things they do on a regular basis. I think Dixie has the very best custodians around. They are great people and would do anything for the kids of Fayette County.
